NOTES:

- The detailed component and subcomponent list is provided in Enclosure 3 of Reference (c)
- Components bolded and underlined were tested by JITC. The other components in the family series were not tested but are also certified for joint use. JITC certifies those additional components because they utilize the same software and similar hardware and JITC analysis determined them to be functionally identical for interoperability certification purposes.
- The VDS Matrix Switcher version was updated from 1.011.0017 to 1.501.0013 with DTR 1.
- The VDS system peripheral version was updated from 1.2456.00057 to 1.2911.00027 with DTR 1.
- The VDS system peripheral version was updated from 1.2143.00055 to 1.2911.00027 with DTR 1.
- The VPCC device version was updated from 1.2456.00016 to 1.2911.00027 with DTR 1.
- Components were added with DTR 1.
- DMPS3-4K-100-C, DMPS3-4K-50-C, DM-RMC-4K-SCALER-C, DM-RMC-4K-100-C, DM-TX-200-C-2G, DM-TX-4K-302-C components were added with DTR 1.
